

**PIENAAR ENERGY (PTY) LTD**

# **200 000 square meter solar power plant**

## Overview

---

China has recently unveiled what is believed to be the largest solar power plant in the world, located in northwestern Xinjiang. The carport is built with durable, class-4 Douglas fir sourced from the Ardennes and certified by PEFC standards for sustainable forest management. Covering 200,000 square meters, the €40 million project includes 93,786 photovoltaic panels. These panels—a mix of Chinese Longi and Canadian Solar. Belgian energy company Perpetum Energy has built a 40 MW solar carport at Pairi Daiza, a privately owned zoo and botanical garden in Hainaut, Belgium. These solar installations are real, built, and documented proof of humanity's transition to clean energy. These. This SolarPower. <a. China's Overwhelming Dominance: China controls 11 of the top 15 largest solar farms globally, with the Gonghe Talatan Solar Park leading at 15. Unprecedented Scale Growth: Mega solar.
