

**PIENAAR ENERGY (PTY) LTD**

# **350aw photovoltaic panel specifications**

## Overview

---

All you need to know about the Solar Module 350-Watt solar panel including rating, cost, efficiency, and warranty terms. Module Dimension (Open) 67.7 kg) Number of Bypass Diodes 12 12 Nominal OP Cell Temperature 43 +/-2 °C 43 +/-2 °C Temperature Coefficient: -0.6% (360W) and 20% (350W) and greater high-temperature performance deliver a high-output renewable energy. manufacturing technology. perfect for rooftop installation. Impedance matching technology eliminates mismatch losses, more power from each module bin. Certified to withstand: wind load (2400. The most common solar panel sizes for residential installations are between 250W and 400W, while larger commercial installations may use panels up to 500W or more. Positive power output tolerance (+3 Wp). View Data Sheet, Certifications & Warranties here. They are popular for various uses, such as powering homes, schools, and businesses.

## 350aw photovoltaic panel specifications

---

### **SBM 350W SOLAR PANEL SPECIFICATIONS**

**MAIN FEATURES** Panels supported by best ballistic materials. Compact folding size Easy to stow and use. Multiple embedded bypass diodes. Ruggedized construction for all water resistant. Perfect for ...
