

PIENAAR ENERGY (PTY) LTD

400V Power Storage Cabinet Specifications and Models

Overview

Energy Storage Cabinet SOFAR Model Battery type Rated energy Rated Voltage DC operating voltage range Recommend DC voltage range AC Voltage Rated power Maximum AC power Maximum AC current Rated grid frequency Power factor Operating ambient temperature Storage ambient. Energy Storage Cabinet SOFAR Model Battery type Rated energy Rated Voltage DC operating voltage range Recommend DC voltage range AC Voltage Rated power Maximum AC power Maximum AC current Rated grid frequency Power factor Operating ambient temperature Storage ambient. The 418kWh BESS Cabinet is a high-capacity all-in-one (AIO) energy storage cabinet built for commercial and industrial (C&I) users who need fast deployment, scalable expansion, and clean integration with modern PV and low-voltage distribution systems. The platform integrates key subsystems—battery. to meet your site goals. HVDC technology combines the proven benefits of -48V DC power - modularity, scalability, and ease of integration - with the cable and installation savings benefit of high efficiency and reliability. Galaxy VX 1250 kW I/O Cabinet without Backfeed protection on Mains 2 (GVXI1250KDNBF2) Backfeed protection can be installed internally in the 1250 kW I/O cabinet with the optional. Galaxy VS is a highly efficient, modular, simple-to-deploy 10-150 kW (400 V) 3-phase uninterruptible power supply (UPS) that delivers top performance to edge, small, and medium data centers, as well as critical infrastructure in commercial and industrial facilities. You need best-in-class power. 1500A / 400V Air-Cooled AC Parallel Cabinet (5-in-1 Design) The BYHV-ACB0501 AC parallel cabinet enables safe and reliable parallel operation of energy storage systems through integrated switching, control, and protection.
