

PIENAAR ENERGY (PTY) LTD

60kWh photovoltaic containerized water treatment plant in Taipei

Overview

On June 25, ECOVE Solar Energy Corporation, a company of CTCI Group Resource Cycling Business, announced that in response to the Government's promotion for renewable energy it has completed a photovoltaic project at Taipei City Changxing Water Purification Plant, the first. On June 25, ECOVE Solar Energy Corporation, a company of CTCI Group Resource Cycling Business, announced that in response to the Government's promotion for renewable energy it has completed a photovoltaic project at Taipei City Changxing Water Purification Plant, the first. Lenntech supplies any type of water treatment in a containerized version. From desalination plants to emergency resonance units. Providing advanced, sustainable and smart solutions is at the heart of what we do. These. Take the difficulty out of large-scale reverse osmosis plants with containerized water treatment systems. By choosing pre-designed, module-sized plants, fully assembled in standard 20-ft and 40-ft containers with the option for a 10-ft as well, the complexity and construction of building water. Containerized water treatment system is an integrated water treatment plant that combines various types of water treatment units and control systems in a containerized structure to optimize filtration capacity and precision while achieving convenient and rational management. This makes the plant ready for use when supplied, which financially can be an advantage, also in relation to the.

60kWh photovoltaic containerized water treatment plant in Taipei

Mobile water treatment in container

We have constructed many different custom-made water treatment plants in container adapted to specific demands and wishes. Please contact us for further information and to hear about your options.
