

PIENAAR ENERGY (PTY) LTD

A talented person makes a solar generator

Nominal Capacity

280Ah

Nominal Energy

50kW/100kWh

IP Grade

IP54

Overview

A talented Nigerian man known as Mr Terrific has made a "fuelless generator" Nigerians can use as an alternative to normal (on-grid) electricity. In one of the videos he shared online, he showed a fabricated box as a generator made with the solar system components. Building a solar generator offers an eco-friendly, portable solution for reliable power during outages, outdoor adventures, or emergency situations. Combining solar panels, batteries, and inverters, a solar generator harnesses the sun's energy to provide clean electricity without relying on fossil. Building a solar generator is simpler than you think. It saves money and helps the environment. Solar power is becoming popular as people look for clean energy solutions. Do you have what it takes to make one yourself?

My family owns a cozy off-grid cabin in the hills, but since there's no electricity, I'd only stay there. To build a solar generator, you'll need a solar panel, a charge controller, a deep-cycle battery, and an inverter.
