

**PIENAAR ENERGY (PTY) LTD**

# **African solar energy storage cabinetized automated type**

## Overview

---

A solar-powered cabinet in Ouagadougou that can power 200 households during blackouts while making coffee for local engineers. Okay, maybe not the coffee part – but Burkina Faso's cabinet-style energy storage cabins are proving you can teach an old grid new tricks. Did you know 600 million Africans lack reliable electricity access despite the continent's solar potential?

The old grid systems just aren't cutting it anymore. Last month's blackout in Lagos proved that - 12 hours without power for 20 million people. That's where smart energy storage cabinets come. An increasing number of African countries are starting Requests for Proposals (RfPs) for projects including both solar and storage, as there is a growing understanding of the technical advantages of storage as well as its price evolution. What is a 50kw-300kw lithium energy storage system?

A 50KW-300KW lithium energy storage system consists of 48-volt modules with capacities ranging from 100Ah to 400Ah.
