

PIENAAR ENERGY (PTY) LTD

After-sales service for 500kWh energy storage container

Overview

To discuss specifications, pricing, and options, please call Carl at (801) 566-5679. Each container with all of the equipment will weigh less than 16 tons. Fully tested before being shipped. Production time is 4-6. The energy storage system is essentially a straightforward plug-and-play system which consists of a lithium LiFePO4 battery pack, a lithium solar charge controller, and an inverter for the voltage requested. is located in South of Yangzhou, Jiangsu, China. With our total area 30000 square meters, the workshop occupies 23000 square meters, container stock yard 5000 square meters and office 2000 square meters. We have total staff 120 persons, among which 15. It features a three-level battery management system that ensures robust protection against overcharging, over-discharging, and over-voltage. The modular design enables easy expansion and front maintenance, while a built-in local monitoring EMS allows for remote oversight. PV Power Input: Energy storage containers offer several advantages in the context of battery. For buyers looking for products with high customization and specialization, Custom Manufacturers provide dedicated production lines and custom design capabilities with an emphasis on meeting quality, delivery, and after-sales service requirements.
