

PIENAAR ENERGY (PTY) LTD

Air-cooled container energy storage system

◆ PRODUCT INFORMATION ◆

-  **BATTERY CAPACITY**
50kWh~500kWh
-  **DC VOLTAGE RANGE**
400V~1000V
-  **DEGREE OF PROTECTION**
IP54
-  **OPERATING TEMPERATURE RANGE**
-10-50°C

Overview

Air-cooled container energy storage systems are designed for easy deployment and integration. The systems are modular, allowing for scalability to meet various energy storage needs. 7 billion by 2024, with a Compound Annual Growth Rate (CAGR) of 21.7% during the base year period. This acceleration is driven by increasing adoption of renewable energy integration, grid modernization initiatives. GESS energy storage battery integration system consists of 20/40 feet prefabricated container, including battery systems, lighting, fire protection, air conditioning, on-site monitoring, etc. The product has the battery cluster as the basic unit and can achieve different voltages and capacities to. Containerized ESS (Energy Storage System) is a mature technology solution, which well meets the needs of shipowners to transform the ship's power distribution system and increase large-capacity batteries.

Air-cooled container energy storage systemqcp

Global Air-cooled Container Energy Storage System Supply, Demand ...

The global Air-cooled Container Energy Storage System market size is expected to reach \$ million by 2029, rising at a market growth of % CAGR during the forecast period (2023-2029).
