

**PIENAAR ENERGY (PTY) LTD**

# **Albanian Flow Battery**

## Overview

---

Imagine powering a Kavajë Street cafe for 3 days on a battery the size of a furgon steering wheel! Tirana Regional Hospital's new vanadium flow system provides 12-hour backup with 94% efficiency [4]. The secret sauce?

Liquid electrolytes stored in repurposed fuel tanks from. Well, Tirana's electricity bills tell a sobering story. With energy demand growing 7% annually since 2022 [1], Albania's capital faces a perfect storm of aging infrastructure and climate commitments. It would have 100 MW in annual capacity. The energy transition implies vast solar and wind power capacity, but with energy storage systems that can keep unstable. As Albania accelerates its transition to renewable energy, the Tirana Home Energy Storage Battery Production Plant represents a critical piece of the puzzle. To learn more, feel free to contact us on [sales@6wresearch](mailto:sales@6wresearch). Discover how flow batteries support Albania's green transition and learn about pricing dynamics for commercial and industrial users.
