

PIENAAR ENERGY (PTY) LTD

Ampere time 400ah

Overview

☐Twice Larger Capacity & Higher Supporting Power☐With a built-in 250A BMS, the Ampere Time 12V 400Ah LiFePO4 battery can deliver up to 5. The capacity of one Ampere Time 12V 400Ah battery is greater than that of two standard 200Ah batteries, allowing you to assemble your battery. In short, a 12v 400ah battery with a 50% DoD limit will last between 20 hours (running a 100-watt AC appliance) to 1 hour (running a 2000-watt AC appliance). The backup time, or how long your 400Ah battery can run your appliances, depends on a few key factors: Now let's break down each part and see. Delivery time is estimated using our proprietary method which is based on the buyer's proximity to the item location, the shipping service selected, the seller's shipping history, and other factors. Delivery times may vary, especially during peak periods. Due to spacial issues this battery had to be mounted on its side, but fit great once installed, see picture. Our AGM's were good for 3 days off grid when new and only 1 day after two years. 5. The same 400Ah label can represent very different stored energy in a 12V-class, 24V-class, or 48V-class system, and real loads never receive 100% of nameplate energy.

Ampere Time batteries (2)200ah vs 400ah

The 400ah makes more efficient use of the space in the battery case and the 200ah wastes almost half of it. Even a 300ah leaves a lot of empty space in the case but the 300ah is the best \$ value.
