

PIENAAR ENERGY (PTY) LTD

Angola australia solar power

Overview

This project is the centerpiece of Angola's efforts to replace thermal power stations, displace expensive diesel usage from generators, and reduce pollution. Diversifying Angola's energy matrix, this project utilizes cutting-edge clean energy technology that will pay dividends for. Angola's solar energy program has reached a milestone with the completion of seven photovoltaic plants that collectively underscore the country's pivot toward renewable power and away from diesel-based generation. Officials marked the achievement in early September with the inauguration of the. Quilemba Solar, a joint venture of TotalEnergies (51%), Sonangol (30%), and Maurel & Prom (19%), is building Angola's largest private solar power plant. The plant, located in Huíla province, will start with 35 MWc capacity and could expand to 80 MWc, powering 40,000 households by early 2026. In early September, officials inaugurated the Bailundo Photovoltaic Park.
