

**PIENAAR ENERGY (PTY) LTD**

# **Are photovoltaic panels harmful to houses**

## Overview

---

Scientific consensus indicates that EMF from a properly installed solar system poses no measurable health risk to occupants. When looking for a house to live in, recently, I noticed that those with solar panels made me VERY ill, within seconds. As I own a rf (radio-frequency radiation) meter (a Cornet 88T Plus), I began measuring these sorts of homes. What I found was a significant increase in rf radiation (from hundreds. While solar energy presents numerous advantages, it is crucial to recognize the potential risks associated with its adoption. The potential health and safety concerns often stem from misinformation. The cons include high initial costs, specific roof requirements, possible higher property taxes and storage costs. Solar energy is a cleaner, safer.
