

PIENAAR ENERGY (PTY) LTD

Australian Outdoor Cabinet Lightning Protection ODM

Overview

These cabinets provide an essential layer of protection for the active equipment inside by diverting excess electrical energy away from critical components, ensuring the longevity and uninterrupted operation of the telecommunications network. Outdoor fiber cabinets, equipped with integrated surge protection, offer a formidable defense against the damaging effects of lightning strikes. We sell our wide range of LDU products Australia wide through an efficient network of distributors at state and regional level. We also have a number of general resellers stocking our lightning protectors, earthing equipment, power. Lightning. It's a force of nature, powerful and unpredictable, capable of causing significant damage to structures and electrical systems.

Australian Outdoor Cabinet Lightning Protection ODM
