Overview

At Modbox, we design and build shipping container solar solutions to securely house your solar panels, batteries, inverters, and other equipment. Whether you're powering a remote worksite, an off-grid project, or a backup energy system, our containers are built tough for Australian conditions. The solar array is mounted directly onto the container, and can provide both off-grid and grid-tied functionality, with all necessary equipment to ensure safe and. AVID GROUP provide a whole range of SPS and Containerised Solar Energy Solutions. AVID's solar design, installation, commissioning and monitoring services are operated by our teams of skilled engineers and qualified electricians. The Australian Solar Container makes electricity with photovoltaic panels on the container.
