

**PIENAAR ENERGY (PTY) LTD**

# **Azerbaijan Energy Storage Power Supply Processing Plant**

## Overview

---

Azerbaijan is building a 250-megawatt energy storage system, which will be integrated into the grid by 2027, Elchin Targuluyev, a solar and wind energy specialist at SOCAR Green, said at the Azerbaijan & Central Asia Green Energy Week 2025, Report informs. According to information released on September 4, Azerenerji has begun installing BESS units near the capital, at the 500-kilovolt Absheron substation and the 220-kilovolt Agdash substation. Targuluyev recalled that Azerbaijan plans. List of power plants included in the energy system of Azerbaijan and operating independently (for 2024) . Large-scale Battery Storage Systems (BESS) have been initiated for the rapid development of renewable energy sources (RES) in the country. This article explores operational projects, emerging trends, and how innovations like grid-scale batteries are stabilizing power supply while reducing.
