

**PIENAAR ENERGY (PTY) LTD**

# **Backup power eritrea**

## Overview

---

A new scheme backed by the African Development Bank's Desert to Power initiative will fund new solar PV capacity, battery energy storage and diesel backup mini-grid systems in Eritrea, as part of three mini-grid systems in the remote Zoba Gash-Barka region. This guide explores industry applications, renewable integration strategies, and real-world success stories - perfect for businesses and organizations seeking reliable off-grid energy solution. The fund will finance the construction of a 30MW solar PV power plant near Dekemhare, a town 40km southeast of Eritrea's capital Asmara, in addition to a battery backup system. African Development Bank Group (AfDB) / Press release | Eritrea: The African Development Fund. The Sahel region, long known for its arid climate and harsh living conditions, is set to become a beacon of renewable energy transformation through the Desert to Power (DtP) initiative. This growing African country now enjoys a photovoltaic system with a power of 250kWp.
