

PIENAAR ENERGY (PTY) LTD

Bahamas electric vehicle adoption

Overview

The Bahamas aims for 50% of new vehicle sales as fully electric and 30% hybrid by 2035, limiting fossil fuel models to 20%. Government fleets lead with over 235 BYD EVs introduced since 2022, boosting visibility across Nassau and other islands. This builds on prior 2030 goals, supported by reduced. Increasing new electric vehicle sales three to four-fold to meet the Government's targeted 50 percent market share by 2035 will be “quite a jump”, a dealer admitted yesterday, while hailing its “vision” for combating climate change. Pia Farmer, Easy Car Sales co-founder, lauded the government. Whether you're seeking the power and convenience of gasoline, the efficiency of hybrid, or the sustainability of electric, we offer a wide range of vehicles to suit your needs. In partnership with Easy Car Sales, EV Motors, and Icon Bahamas, this initiative promotes environmental.
