

PIENAAR ENERGY (PTY) LTD

Barbados off-grid solar

Overview

Small Islands off the Coast: The small islands surrounding Barbados, like Pelican Island or other uninhabited areas, are ideal for off-grid solar installations, especially for developments aimed at eco-tourism or research stations, where grid connection might not be feasible. The company offers all projects as full turnkey and can also provide consultancy, supply and installation services for any solar PV project. Established over four. Residential grid tied, off-grid homes, and cabins, solar panel kits and components such as racking, charge controllers, inverters and cabling. Battery energy storage solutions for both indoor and outdoor applications. The focus of the Ministry is to advance legislation, policy and programmes to give life to Government's stated policy of. The RSB (Renewable Solutions Barbados) Group has been granted a license by the Fair Trading Commission (FTC) to operate a 50 MW solar photovoltaic project in Barbados. This initiative aims to strengthen food security in island nations by integrating local production, training, and renewable energy.
