Battery connected to two inverters at the same time

100KWH/215KWH

LIQUID/AIR COOLING

IP54/IP55

BATTERY 6000 CYCLES

Battery connected to two inverters at the same time

Is it ok to have two 100% independent inverter/battery systems

Both inverters would be set to charge the batteries only at off peak times from the grid. The solar is only small, and rarely generates more than the house is using, so not worried about that aspect.
