Beaudens 380wh review

Overview

This is my unboxing and first impressions video about this Beaudens Power Station. For people who don't know what the LiFePO4 battery is let us explain. LiFePO4. I'm looking at the 380WH unit, comparing it to a Jackery 500. Its a fairly new model, there are very few reviews online but it sounds promising. ►
☐Shipping from the US☐EXCELLENT IN SAFETY AND STABILITY: One important advantage of LiFePO4 batteries over other lithium-ion batteries is thermal and chemical stability, which improves battery safety. The Lithium iron phosphate battery offers this power station 2000 cycles and more than 10 years. Beaudens portable power stations offer versatile charging options, including AC, solar, and car charger, ensuring power availability for various situations. Most models feature high capacity, supporting a wide range of devices and appliances, making them ideal for outdoor adventures or emergency. Recharge from 0 to 80% in 2 hours with dual input ports. Recharges from 0-100% within 2 hours using DC 100W and PD 65W inputs.
