

PIENAAR ENERGY (PTY) LTD

Bern solar container outdoor power model specifications

Overview

Providing 24/7 clean energy with scalable solar capacity of 30-200kW and battery capacity of 50-500KWh. Engineered for disaster response, remote sites, and temporary installations with 95%+ uptime reliability. The lightweight, ecologically-friendly aluminium rail system guarantees a mobile. AC Phase Reverse, Fan/Relay Failure, OLP, GFDI, Anti-island SA 22. 2 CE LVD, IEC 62477, CE EMC rsion systems always consume certain active power s the loss. 0 leading or laggin ariables in the equation defining power factor e determined with the variation of the active. Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank. Fully customizable to your exact needs. The durable container design is completely waterproof, protects you and your equipment from. A solar power container is a self-contained, portable energy generation system housed within a standardized shipping container or custom enclosure. That's exactly what Bern Energy Storage Mobile Power Supply offers. Transportable via standard shipping container, the system achieves full operational capability within 4-6.

Bern solar container outdoor power model specifications

**Efficient
Higher Revenue**

- Max. Efficiency 97.5%
- Max. PV Input Voltage 600V
- 150% Peak Output Power
- 2 MPPT Trackers, 150% DC Input Overvoltage
- Max. PV Input Current 16A, Compatible with High Power Modules

**Intelligent
Simple O&M**

- IP65 Protection Degree: support outdoor installation
- Smart 1 V Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
- DC & AC Type II SPD: prevent lightning damage
- Battery Reverse Connection Protection

**Flexible
Abundant Configuration**

- Plug & Play, EPS Switching Under 10ms
- Compatible with Lead acid and Lithium Batteries
- Max. 6 units Inverter Parallel
- AFCI Function (Optional): when an arc fault is detected the inverter immediately stops operation

OUTDOOR SOLAR CONTAINER CABINET INSTALLATION ...

Energy storage systems (ESS) store electricity for later use, supporting the grid by managing supply demand, integrating renewables like solar and wind, and providing backup power.
