

**PIENAAR ENERGY (PTY) LTD**

# **Best flooded deep cycle battery**

## Overview

---

When choosing a flooded deep cycle battery, key factors to consider include capacity, lifespan, maintenance requirements, size and weight, cost, and type of use. Considering these factors will help you make an informed decision tailored to your specific needs and usage scenarios. After comparing several options, I found the Trojan T-105 GC2 6V 225Ah Deep Cycle Flooded Lead-Acid Battery particularly impressive. It excels in durability and consistent power output, making it perfect for RVs, solar systems, or marine use. They're essential for applications requiring continuous energy, such as: Their ability to discharge up to 100% (for lithium models) without damage makes them ideal for. For years, marine deep cycle batteries have lacked reliable capacity without sacrificing longevity, which is why I was excited to test the US Battery US125CS T-125 6V 240Ah Flooded Lead Acid GC2.
