Bucharest europe renewable energy

Application scenarios of energy storage battery products

Overview

In 2024, Econergy Renewable Energy secured €28 million to develop the 58 MW Iancu Jianu solar project, which is expected to come online in 2025. Meanwhile, European Energy gained approvals for over 500 MW of solar and wind projects, signalling robust growth in renewable. Eenergy, an independent renewable power producer in Central and Eastern Europe (CEE), has started construction of the OGREZENI hybrid project, combining photovoltaic (PV) generation with battery storage, in Giurgiu County, Romania. With an installed capacity of 761 MWp / 534 MW AC and more than 1 GWh. The inaugural “Renewable Energy: Romania's Path to the Future” conference will take place on 29 September 2025 in Bucharest, bringing together key players from across the energy sector. Hosted at the prestigious Hyatt Regency in Sofia, Bulgaria, and the Caro Hotel in Bucharest, Romania, this two-day event offers unparalleled opportunities for networking and.
