Buenos aires electric vehicle incentives

Overview

In Buenos Aires, various incentives are provided to make EVs more accessible, such as tax exemptions or reductions on the Import Duty D. E (Derecho de Importación Extrazona). The Government of the City of Buenos Aires announced the installation of 400 electric vehicle charging stations in the next two years, as part of the Buenos Aires. For a country with a burgeoning electric vehicle (EV) Market, making the correct policy, infrastructure, and production decisions now could spur adoption in the coming years. There have been early signs of industry growth, but adoption rates remain low. In 2022, fewer than 500 electric vehicles. This summary note offers recommendations for the Autonomous City of Buenos Aires (CABA) on developing strategies and policies to facilitate the transition to electric mobility (e-mobility). The recommendations are based on a series of technical reports commissioned by the World Bank team. The study. This initiative promotes the adoption of EVs and cleaner energy sources, with some realistic goals like having EVs comprise one percent of new vehicle purchases.
