

PIENAAR ENERGY (PTY) LTD

Burundi s largest solar inverter production is limited

PUSUNG-R (Fit for 19 inch cabinet)

Overview

Insufficient Supply: The country's installed capacity is approximately 96 MW, sourced primarily from hydropower (80%), which is vulnerable to climate-related issues like droughts. This creates a fragile supply-demand balance. It is part of a series of briefing notes that provide a high-level overview of the status of countries' off-grid solar markets, as well as relevant policies and pr ocountry. We welcome any updates, revisions or clar-ifications at info@go Sec proach. Note that while the numbers shown represent. How does 6W market outlook report help businesses in making decisions?

6W monitors the market across 60+ countries Globally, publishing an annual market outlook report that analyses trends, key drivers, Size, Volume, Revenue, opportunities, and market segments. Frequent Outages: Businesses in Burundi experience an average of 10 hours. olar power plant in Burundi. The power station was constructed between January 2020 and October 2021, by Gigawatt Global Coöperatief, the Netherlands-based multinational independent power producer (IPP), through its local subsidiar Gigawatt Global Burundi SA.
