Can I make photovoltaic panels at home

 **LFP 12V 100Ah**

Overview

If you're not able to splurge on professional solar panels, you can easily make your own at home. [1] What's even better is that you'll save money on your electric bill. This guide will walk you through. Currently I'm a college student studying computer engineering, and this summer while I was on break I decided I wanted to learn more about solar energy and how to build a solar panel from scratch. This guide explains whether you should make your own solar panel, what's involved, how much it costs, and when it's smarter to buy a factory-made module.
