Can a storage cabinet be installed on top of the window

Overview

Yes, you can put a cabinet in front of a window although it will depend on the size and shape of the window, the cabinet, and the available space. A shelf (with top hinge) over the window with a recessed light in the center could yield two high (therefore difficult to reach) storage spaces for items you might not need all that often. You may also want to create a balance between the. However, before you extend the backyard or add another floor, there is a spot in your home that is perfect for extra storage and doesn't require a city permit to utilize: the top of your windows. This area is ideal for adding a shelf to house decor or seasoning items. Standard upper cabinets typically feature a depth of 12 to 13 inches, which is too great to install directly over a window opening. It covers how to prep, assemble, and install the window seat with drawers and how to build and fit display shelves and. A common question arises: Can you put kitchen cabinets in front of windows?

This question leads to various considerations that homeowners and designers must weigh to ensure both functionality and aesthetics in the kitchen. In many homes, windows provide natural light and ventilation, enhancing the.
