

PIENAAR ENERGY (PTY) LTD

**Choose from several types of
external power for
communication base stations**

Overview

● **Antenna:** Responsible for receiving and transmitting wireless signals. This article will introduce how to select an appropriate backup power supply to ensure the reliability of the communication base station. Consider the type of standby power supply: UPS (uninterrupted power system): UPS system is a common choice of standby power supply for communication base. Power supplies can be employed in each of the three systems that compose wireless base stations.

Choose from several types of external power for communication base

Base Stations

The present-day tele-space is incomplete without the base stations as these constitute an important part of the modern-day scheme of wireless communications. They are referred to as cell ...
