

PIENAAR ENERGY (PTY) LTD

Colombia Electric Solar Power Generation for Home Use

Overview

The Colombian government has issued Decree 0972 to encourage solar energy adoption, allowing electricity consumers to install photovoltaic generation systems of up to 5 kW. The program is self-financed, with the installation cost spread across monthly electricity bills over a 120-month period. In a. Colombia's La Plata Archipelago is rich in natural beauty. Situated in Uramba Bahía Málaga National Park, it is surrounded by dense rainforest and a dazzling array of wildlife. Humpback whales come from Antarctica each year to reproduce in its warm, sheltered waters, where they can often be seen. Colombia's Ministry of Mines and Energy has released for public consultation a draft resolution regulating the Colombia Solar programme. The policy allows residential solar self-generation to replace the traditional electricity subsidy for households classified under social strata 1, 2 and 3 within. In Colombia, the electricity landscape over the past 12 months, ranging from July 2024 to June 2025, is predominantly governed by low-carbon sources, contributing to about 73% of the total electricity generation.
