# **Communication Standardization Base Station**

## Overview

---

In communications, a base station is a communications station installed at a fixed location and used to communicate as part of one of the following:

- a system, or;
- a system such as or .

## Communication Standardization Base Station

---

### Base Station System Structure

It describes the structure of base station systems with a convergent top-down and bottom-up framework. The BSWG has now moved beyond detailed consideration of these specific contributions.
