Communications Administration manages base stations

Overview

The FCC licenses individual base station operations, assigns radio call signs, approves equipment for use, establishes limitations for transmitter power output, assigns radio frequencies, and monitors field operations. The Satellite Communications Office is a component of Space Delta 8 and is headquartered at Peterson Space Force Base, Colorado. Ancillary Terrestrial Component (ATC) mobile terminal. government agency overseen by Congress, the Commission is the federal agency. NCTS San Diego BCO is the largest regional communication office that provides day-to-day management, administration, operations, and maintenance of base telecommunications facilities. We support over 80,000 customers within the region to include: COMNAVREGION, COMNAVIARFOR, COMNAVSURFFOR, BUMED. In 2020, the Chief of Space Operations declared that SATCOM had to evolve from disparate systems into a single enterprise to operate in contested environments, be more resilient, and address evolving threats. DOD is now starting to shift its approach to SATCOM acquisition to provide more secure. The Federal Communications Commission (FCC) has jurisdiction over all radio operations in the United States, including those used by EMS systems.
