PIENAAR ENERGY (PTY) LTD

Comparison of floor space for 19-inch network cabinets

Overview

Whether you're outfitting a small server closet or a branch office, these cabinets fit 19″ equipment while saving floor space. Below is a quick comparison to help you choose the right depth, capacity, and features for your setup. A wall mount network cabinet is essentially a compact, secure housing unit that attaches directly to your wall. These cabinets are specifically designed to house lighter networking gear such as switches. Similar in design to the Stand Alone Server Racks, the Flat Pack Rack is perfect for those who need an easy self-assembly (or disassembly) option adaptable to their floor plan and saving on cost. Flat pack racks are useful for spaces where access is an issue that prevents large pre-built models. Protect, organize, and access your critical IT gear with compact wall-mounted network cabinets. Universal Compatibility The greatest strength of the 19-inch rack is its interoperability. 6 mm), allowing different hardware from various.
