

**PIENAAR ENERGY (PTY) LTD**

# Conventional renewable source of energy

## Overview

---

There are also other renewable energy technologies that are still under development, including,,,,, and . These technologies are not yet widely demonstrated or have limited commercialization. Some may have potential comparable to other renewable energy technologies, but still depend on further brea.

## Conventional renewable source of energy

---

### Renewable energy

Renewable energy (also called green energy) is energy made from renewable natural resources that are replenished on a human timescale. The most widely used renewable energy types are solar energy, ...
