

PIENAAR ENERGY (PTY) LTD

Corrosion-resistant folding containers for construction sites

Overview

Whether you're managing a short-term job or a long-term project, here's a breakdown of the best container types and features to consider for construction site storage to keep it secure, organized, and efficient with our lineup of steel containers. With our BOSCs presents an eco-conscious solution with our Quick-Build Container storage units, crafted from recycled galvanized steel. Why Choose Quick-Build Containers?

Panelized, Modular, and Expandable: Our Container houses made from steel often use high strength materials such as ASTM A572 grade steel that can handle yield strengths between 50 to 65 ksi. storage units and adaptable structures for construction sites. Folding container houses are stored in shipping containers for efficient. Steel King's Hold 'n Fold® industrial steel storage containers combine the cost savings of a collapsible (light duty) container with the durability of a rigid (heavy duty) container. Because these containers are stackable up to six high when loaded to capacity, you get the flexibility you need for.
