

**PIENAAR ENERGY (PTY) LTD**

# **Cost of energy storage cabinets in Portugal s large industrial park**

## Overview

---

Commercial and industrial storage (50kWh - 100kWh capacity): 30,000 - 80,000 euros, with customizable pricing for large-scale projects. The European Green Deal launched in 2019 established the roadmap for reducing emissions in the EU by at least 55%. Portugal's Ministry of Energy has announced that it has allocated EUR 100 million (\$104.2 million) to 4 energy storage projects which should be installed by the end. Recent industry analysis reveals that lithium-ion battery storage systems now average €300-400 per kilowatt-hour installed, with projections indicating a further 40% cost reduction by 2030. Storage provides real-time flexibility, enabling participation in balancing markets and ancillary services. Portugal's energy storage import market in 2024 continued to be dominated by key exporters such as Spain, Germany, Metropolitan France, Austria, and Italy. Despite high concentration levels indicated by the HHI, the sector saw a significant growth rate of 27.86% in 2024, outpacing the overall CAGR. Key Insight: The newly launched Lisbon Battery Energy Storage Industrial Park positions Portugal as a leader in sustainable energy solutions, offering scalable storage systems to stabilize renewable power grids. Discover how this \$220 million project will reshape Europe's energy landscape.
