

**PIENAAR ENERGY (PTY) LTD**

# **Costa Rica Huijue Energy Storage Battery Pack Structure and Dimensions**

## Overview

---

It consists of three prefabricated cabins-engineered with power output demands at the megawatt level: 10, 20, and 40 feet in length. The Huijue Energy Storage Battery System is a top-of-the-line energy storage solution that combines high efficiency, long life and intelligent management, and is designed for a wide range of applications such as home emergency power, commercial energy optimisation, renewable energy integration and. What is the difference between a battery rack and a container?

The battery rack consists of the required number of modules, the Battery Management Unit (BMU), a breaker and other components. The container consists of the required number of the battery racks, as well as air conditioning and fire. Huijue Group's energy storage solutions (30 kWh to 30 MWh) cover cost management, backup power, and microgrids. Cabinet-type design, convenient transportation, system capacity 60KWH-300KWH, support. The Huijue Group's HJ-SG-Xx Series Battery Container Energy Storage is a series for versatile and robust energy storage. Prefab cabins integrate batteries, EMS, monitoring, temp control, & fire safety.
