

**PIENAAR ENERGY (PTY) LTD**

# **Danish liquid cooling energy storage project**

## Overview

---

This provides unique possibilities for research, innovation and export of novel solutions for energy storage and at the same time helps us to reach our national climate goal. However, this requires political focus and even more cooperation between knowledge-based institutions and. Copenhagen, Denmark, 20th of January 2025 - European Energy has started on its first large-scale battery storage project. This is done in collaboration with Kragerup Estate. The project will demonstrate the largest grid-connected battery energy storage in Denmark. Learn how advanced storage systems enable grid stability and accelerate green energy adoption.

### Home Energy Storage (Stackble system)

**Product Introduction**

- 1 Scalable from 10 kWh to 50 kWh
- 2 Self-Consumption Optimization
- 3 Integrated with inverter to avoid the compatibility problem
- 4 LFP battery, safest and long cycle life
- 5 Stackable design, effortless installation
- 6 Capable of High-Powered Emergency-Backup and Off-Grid Function
