

**PIENAAR ENERGY (PTY) LTD**

# **Danish user-side energy storage project with dual charging and discharging capabilities**

## Overview

---

Pea sized stones heated to 600°C in large, insulated steel tanks are at the heart of a new innovation project aiming to make a breakthrough in the storage of intermittent wind and solar electricity. Danish user-side energy storage project with two charging and tw the successful commissioning of Denmark's first urban energy storage system. The based battery energy storage system (BESS) will be integrated with he local electricity grid in the new harbour district of Nordhavn,Copenhagen. (Nasdaq: NVVE), a global leader in distributed grid assets management and vehicle-to-grid (V2G) technology, announced today its plans to develop three 2MW Battery Energy Storage System (BESS) projects in Eastern Denmark. Why Partner. Nuvve Denmark ApS, a subsidiary of Nuvve Holding Corp. The initiative. A new project led by DTU has been granted 19 million DKK by the Danish Energy Technology Development and Demonstration Program.
