

PIENAAR ENERGY (PTY) LTD

Do you need to nail the photovoltaic panels

Overview

Yes — the good news is that most solar panels come with pre-drilled mounting holes in the back. Are you thinking about generating all or part of your household electricity from sunlight?

If so, you've probably wondered how home solar panel installation works. With it, they're securely fastened, angled correctly, and ready to produce maximum power for decades. So what exactly is solar mounting?

It's the system of. Mounting solar panels refers to the process of installing solar energy systems onto a structure such as a building or ground mount. The best solar panel installers have the process down to a science and the vast majority of solar panel installation projects should be left to. Once mounted, such photovoltaic arrays can save you hundreds in utility bills every month while also increasing your property value.

Do you need to nail the photovoltaic panels
