

PIENAAR ENERGY (PTY) LTD

Does Zhicun Lithium produce photovoltaic panels

Overview

The first phase of the project, with capacity of 60,000tpy, is expected to generate annual production value of RMB18 billion (USD2.48 billion) at full capacity and create nearly 1,500 jobs. The company has lithium mica, spodumene, salt lake lithium, lithium clay of all categories, and multi-grade lithium resource lithium extraction technology. 6 billion (USD635 million) from. Beijing, 22 September (Argus) — China's Xinjiang Xihai Lithium, formerly known as Xinjiang Zhicun Lithium, has started up the first phase of a plant for lithium carbonate in Luopu county, Hetian area of northwest China's Xinjiang region. jointly registered Xinjiang Zhicun Lithium Industry Co., a lithium processing company in Chaqiliq (Ch: Ruoqiang) County, Bayinghulen.

Does Zhicun Lithium produce photovoltaic panels

Zhicun Lithium

Zhicun Lithium is a miner and processor of lithium salt materials intended for the production of high-quality lithium batteries.
