

PIENAAR ENERGY (PTY) LTD

Does the photovoltaic bracket need to be installed on a rack

18650 3.7V
Li-ion
RECHARGEABLE BATTERY

2000mAh

Overview

Home solar panels need to be mounted on special racking. While you won't need to go up on your roof and work on a system's racking, knowing more about how professionals mount solar panels may give you more understanding of your solar system and how it works. To protect your home and solar system. Securing the mounting bracket to the solar panel Secure the mounting bracket to the solar panel using the appropriate bolts and nuts. Ensure the bracket is properly aligned and securely tightened to prevent movement. In terms of cost, mounts and racking typically account for about 10% of the total cost of an average solar system.
