

PIENAAR ENERGY (PTY) LTD

Double-glass photovoltaic panel frame removal

Overview

Watch our high-speed deframing machine precisely and powerfully remove aluminum frames from dual-glass solar panels. This is engineered efficiency at work, designed to integrate seamlessly. It uses mechanical tools such as precision screwdrivers or cutting blades. The screwdrivers are programmed to precisely unscrew the screws fastening the frames, while the cutting blades can handle. PAIBO Solar Panel Recycling Line is designed for industrial recycling facilities and renewable energy recovery centers, focusing on the most critical steps: frame removal and glass separation, while seamlessly integrating shredding, crushing, grinding, air separation, and dust control for complete.

Double-glass photovoltaic panel frame removal

How to Optimize Recovery with Double-Glass PV Panel Recycling ...

Double-Glass PV Panel Recycling: Discover efficient, compliant, and sustainable solutions with professional recycling equipment.
