

PIENAAR ENERGY (PTY) LTD

Double-layer solar panel production company

Overview

Our portfolio includes not only automatic solar panel production lines, but also individual equipment for PV modules production, from glass loading equipment at the beginning to solar panel assembly and testing equipment at the end. Horad, as a specialist manufacturer of intelligent PV panel production line, is committed to providing complete PV module manufacturing solutions for global customers within the photovoltaic industry like solar panel manufacturers. Qinhuangdao Shuogu Intelligent Technology Co. Double chamber automatic solar laminator machine is a mechanical device that presses multiple layers of materials together. HORAD professional R& D team can customize personalized semi-automatic or fully automatic production lines based on different customer needs, including factory layout, equipment deployment and production line planning, to improve the automation level of the solar panel production, increase. Full automatic, labor and space saving Shuogu solar is a professional manufacturer of solar production line equipment. A: To Beijing airport, and by high speed train from Beijing to Qinhuangdao (1 hour).

Double-layer solar panel production company

Turnkey Production Line · Double100

Expert in Photovoltaic Manufacturing Processes Full-Scale Production Lines for Solar Panel Fabrication

- LiFePO₄ Battery, safety
- Wide temperature: -20~55°C
- Modular design, easy to expand
- The heating function is optional
- Intelligent BMS
- Cycle Life: > 4000
- Warranty: 10 years

Double Layer & Triple Chamber Laminator , Solar Panel Lamination

Our portfolio includes not only automatic solar panel production lines, but also individual equipment for PV modules production, from glass loading equipment at the beginning to solar panel assembly and ...
