

PIENAAR ENERGY (PTY) LTD

EU solar panel export prices

Overview

Summary: This analysis explores the current photovoltaic panel price trends in Europe, examining market drivers like raw material costs and policy changes. Discover regional price variations, future projections, and practical insights for solar energy investors. Why. In 2024, the EU imported solar panels to the value of €11.9 billion and wind turbines worth €0. The EU import values of solar panels and liquid biofuels in 2024 were much higher than the corresponding EU export values which were. Every month we publish a current price index on the development of wholesale prices of solar modules. In doing so, we differentiate between the main technologies available on the market. Data source: IRENA (2025); Nemet (2009); Farmer and Lafond (2016) - Learn more about this data Note: Costs are expressed in constant 2024 US\$ per watt.

EU solar panel export prices
