

**PIENAAR ENERGY (PTY) LTD**

# **Eastern european off-grid solar cabinet-based automated type**

## Overview

---

The 120 kW automatic switching cabinet integrates STS-based control, protection, and monitoring functions to enable safe and automatic grid-connected and off-grid operation. It works with energy storage cabinets and PV inverters to support stable power distribution and coordinated. As Europe accelerates its transition to renewable energy, outdoor energy storage cabinets have become a cornerstone of the region's energy ecosystem. From residential rooftops to industrial facilities, these robust systems bridge the gap between intermittent solar and wind power and consistent. The ESS-GRID Cabinet series are outdoor battery cabinets for small-scale commercial and industrial energy storage, with four different capacity options based on different cell compositions, 200kWh, 215kWh, 225kWh, 241kWh, etc. They can be widely used in farms, animal husbandry, hotels, schools. Transform your energy independence dreams into reality through expert designing an off-grid solar system that perfectly aligns with European regulations and climate conditions.
