

**PIENAAR ENERGY (PTY) LTD**

# **Eco-energy storage system price trend**

## Overview

---

In 2025, the global average price of a turnkey battery energy storage system (BESS) is US\$117/kWh, according to the Energy Storage Systems Cost Survey 2025 from BloombergNEF (BNEF), published last week (10 December). That was a 31% decline from 2024 numbers. Energy storage prices saw slight declines in late 2024, but a new wave of tariffs and trade rulings is likely to reshape pricing in the months ahead. 3 GW nationwide and pushing year-to-date additions past the total installed capacity for all of 2024. This guide breaks down residential, commercial, and utility-scale ESS costs, analyzes key price drivers, and reveals how new technologies are reshaping energy storage economics. A thorough analysis of historical data, combined with current market.
