

**PIENAAR ENERGY (PTY) LTD**

# **Egypt energy storage power price**

## Overview

---

Egypt has announced new tariffs for solar energy storage, a major policy shift aimed at accelerating renewable energy investments. This guide provides actionable data for businesses, project developers, and policymakers navigating Egypt's dynamic energy storage market. Egypt's. The 300-MWh Abydos BESS project, which is aligned with a 500-MW solar power facility, makes the site near Aswan in southern Egypt home to the country's first utility-scale integrated solar-plus-storage installation. To achieve this target, Egypt implemented the following policy mix: first, feed-in tariffs to attract investors, and second. Egypt implements policies in 5/8 categories tracked by Climatescope; Renewable energy target, Auctions/tenders (utility-scale), Support for customer-sited generation (rooftop and self-consumption), REC'S - Renewable Energy Certificates, and Priority generation dispatch The average electricity price. With Egypt aiming for 42% renewable energy by 2030, the demand for battery storage systems (BESS) has skyrocketed.
