

**PIENAAR ENERGY (PTY) LTD**

**Electric vehicle safety castries**

## Overview

---

This free safety tip sheet from NFPA outlines the things consumers should know about owning an electric vehicle. Explore all NFPA social media cards related to lithium-ion. Honeywell is recognized as an Industry leader with pioneering, patented PPE to help protect workers from serious thermal, chemical and electrical hazards. We offer electrical safety, respiratory protection, fall protection and general safety PPE such as low-voltage rubber gloves and leather. Explore the following information and resources from NFPA to learn more about EV fires and how you can stay safer. NOTE: Because electric vehicle technology is constantly evolving, it is difficult to provide information and resources that address every potential scenario involving an EV. New safety regulations published by China's Ministry of Industry and Information Technology state that cars sold in China will be required to have mechanical releases on their doors. BEVs are increasing in sales and use throughout the world. BEV safety requires special efforts such as BEV specific standards and BEV training for first responders for incidents.

## Electric vehicle safety castries

### A Policy Brief Improving Safety for Battery Electric Vehicles

Weight and Safety Effects parable conventional vehicles due to the weight of batteries. This extra weight m y affect stopping distances and increase momentum in crashes. While the extra weight may help ...
