

PIENAAR ENERGY (PTY) LTD

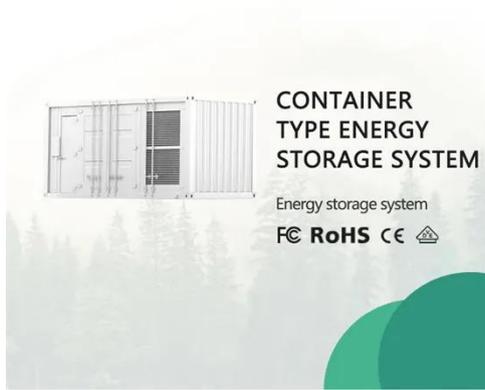

Energy storage market people s republic of china

Overview

The China energy storage market was estimated at USD 223.45 trillion by 2034, growing at a CAGR of 25. China's National Energy Administration (NEA) has released the China New Energy Storage Development Report 2025, marking the first official and comprehensive government report dedicated to the country's rapidly advancing new energy storage (NES) sector. The report, jointly prepared by the NEA's. China has published a national plan to promote large-scale energy storage facilities, encouraging investment and broader participation in the electricity market. An augmented focus on energy storage development will substantially lower the curtailment rate of renewable energy and add tractability to peak te funds, institutional investors, or bank financing. It is currently the largest single electrochemical storage facility in the country (Image: Ma Mingyan / China News Service / Alamy) In February 2025, China shelved a requirement that new domestic.
