Overview

The agreement paves the way for the construction of a 100-MWp solar plant supported by a 50-MWh battery storage system, part of a national effort to expand clean-energy production as electricity demand rises and the country continues to rely heavily on thermal generation. Chad is charting an ambitious energy transition, aiming to close one of Africa's lowest electricity access gaps while bolstering climate resilience and diversifying its economy. Chad sits at the heart of Africa with vast renewable energy potential, yet it remains one of the world's most energy-poor. Axian Energy, the power and infrastructure subsidiary of the pan-African Axian Group, has signed a Memorandum of Understanding with Chad's Ministry of Energy and Water to develop a large-scale solar power project in the capital, N'Djamena. Image: Aerra Carnicom. rural access target by 2030. In Chad, only 4% of the population has access to electricity. Developed by Global South Utilities (GSU), a subsidiary of Abu Dhabi's Resources Investment LTD, the project is equipped with 81,000 solar panels and 158. The OPEC Fund has signed two new loan agreements with Chad on the sidelines of the 2025 World Bank Annual Meetings in Washington, DC. The agreements were signed by Tahir Hamid Nguilin, Minister of Finance and Budget, and OPEC Fund President Abdulhamid Alkhalifa. The OPEC Fund is providing US\$15.
